SUSTAINABLE ECONOMY & PLANET

## SOLVING CLIMATE CHANGE IS THE NEXT MOONSHOT

**SUSTAINABILITY  
FOR THE 21<sup>ST</sup> CENTURY  
CONFERENCE**

**MARCH 25-27**  
Various Campus Locations

**Free and open to the public**

This diverse conference, which features keynote addresses by two climate change experts, is built around a pair of annual Purdue engineering symposiums and includes various events across campus and in the surrounding community. Keynote addresses include:

**JENNIFER WILCOX** — 6 p.m., March 25, **Purdue Memorial Union North Ballroom.** Wilcox, a chemical engineering professor at the Worcester Polytechnic Institute will present "What if Carbon Capture is the Next Moonshot?"

**KATHARINE HAYHOE** — 7:30 p.m., March 27, **Stewart Center's Fowler Hall.** Hayhoe, a political science professor at Texas Tech University, will present "What if Society Trusted Scientists?"

These appearances are accompanied by events related to the Agricultural and Biological Engineering Graduate Student Association Symposium and the Ecological Sciences and Engineering Symposium.

**150** YEARS OF **GIANT LEAPS**  
PURDUE UNIVERSITY
