Engineering and Biomedical
Engineering

ladisch@purdue.edu

**NATHALIE
DUVAL-COUETEL, MBA, Ph.D.**

Professor of Technology
Leadership and Innovation

natduval@purdue.edu

Prepare for Contemporary Jobs in Industry or Academia

COURSE DESCRIPTION

Learn how to navigate the intellectual, financial, leadership, and management processes associated with translating research into tangible products through university-initiated, early stage commercialization. Guest speakers illustrate the startup process through case studies highlighting topics such as intellectual property, investment, publishing versus patenting, conflicts of interest, personal and professional rewards, and timing.

THURSDAYS 5:30-8:20 PM

Burton D. Morgan Center for
Entrepreneurship Room 121

Rarely is it possible to find a course that can satisfy so many important facets of a subject. It shows you how to transition from an academic mindset to a technology development frame of mind.

Craig Sweet | PhD Student

The course is useful in the context of professional development because it made me aware of how to identify research that is potentially financially valuable and how to avoid accidentally mishandling it.

Logan Ganzen | PhD Student

This class was the starting point of a company I co-founded with three former students. The venture called Perceive has revenues, and received two rounds of SBIR funding.

Yung-Hsiang Lu | Professor,
Electrical & Computer Engineering
