SPINTRONICS WORKSHOP II**

September 11, 2019

Burton D. Morgan Center for Entrepreneurship (MRGN 121)

8:30 a.m. - 5:00 p.m.

This workshop will provide a platform for discussion of recent progress and emerging trends in Spintronics and related research and applications. This second meeting between Purdue and Tohoku University on Spintronics and related research follows the success of the inaugural meeting held in Sendai, Japan in February 2018. The workshop goals are to exchange scientific and engineering information and to encourage the development of collaborative efforts between our institutions. The workshop will kick off with a Discovery Park Distinguished Lecture presentation by Professor Hideo Ohno, President of Tohoku University and a renowned world leader in Spintronics.

To register for this workshop, contact Annie Wheeldon at acheever@purdue.edu or 765-496-7425.

Organizing Committee:

Y.Chen, Z.Chen, S. Datta, S. Fukami, Y. Hirayama, E. Marinero
