

# ***WORKSHOP: NITROGEN FATE SHAPES AGRICULTURE'S SUSTAINABLE FUTURE***

We welcome you to register for the Nitrogen Fate Shapes Agriculture's Sustainable Future workshop, a one-day event sponsored by the Purdue Institute for a Sustainable Future (ISF) and the Oak Ridge Associated Universities (ORAU) innovation partnerships grant program.

This workshop is designed to promote interdisciplinary knowledge transfer and enable team building for enhancing sustainable agricultural land management both on-field and downstream. One goal is to identify translational science opportunities like enhanced decision support tools for producers and watershed planners and methods for evaluating land management.

*Keynote Speaker*

**LAURA JOHNSON, PHD**

Chief Science Officer,  
Office of Agricultural Science and  
Research

Michigan Department of Agriculture  
& Rural Development

**SEPT 19 | 10:00 AM - 3:30 PM | DLR 131**
