

PURDUE INSTITUTE FOR INTEGRATIVE NEUROSCIENCE

Brain and Spinal Cord Injury

Seminar Series

- Sept. 5 "Seizure - induced brain injury: The role of neuro-immune interactions"
Dr. Amy Brewster - Assistant Professor of Behavioral Neuroscience
- Sept. 19 "From tissue deformation to behavioral deficits: a multidisciplinary investigation of traumatic brain injury"
Dr. Riya Shi - Professor of Neuroscience & Biomedical Engineering
- Oct. 3 "A critical examination of neurocognitive testing after sports-related concussion"
Dr. Thomas Redick - Assistant Professor of Cognitive Psychology
- Oct. 17 "Clinical animal models and biomarker for CNS trauma and disease"
Dr. R. Tim Bentley - Associate Professor of Neurology & Neurosurgery
- Oct. 31 "Assistive technology in post-SCI rehabilitation"
Dr. Bradley Duerstock - Associate Professor of Engineering Practice
- Nov. 14 "Alcohol induced pain-role of aldehyde and TRPA1"
Dr. Richard van Rijn - Assistant Professor of Medicinal Chemistry & Molecular Pharmacology
- Nov. 28 "Comorbidity of osteoarthritis and TBI"
Dr. Dianne Little - Assistant Professor of Basic Medical Sciences
- Dec. 12 "Mechanism and novel treatment of Neuropathic pain"
Val Watts - Associate Dean for research/College of Pharmacy,
Professor of Medicinal Chemistry & Molecular Pharmacology

The seminars will be held in the
DRUG Lobby Conference Room.

Time: 4:00-5:00 PM

Light refreshments will be served
