# ECE 477 Digital Systems Senior Design Project

Guideposts
Week 9

Last Week (Week 10)

- **Aaahhhhh**

This Week (Week 11)

- Homework 8: Midterm Peer Reviews
  - Due Wednesday at 12am (midnight)
  - Provide confidential, detailed feedback on how your fellow team members are doing
- Homework 9: Software Design Considerations
  - Due Friday at 12am (midnight)
  - Overall organization of code (flowcharts, function call structures)
  - Discussion of embedded source code
  - Peripheral utilization and memory maps

This Week (Week 11)

- Mandatory Lab Session 7:
  - Wednesday at assigned TCSP session time in EE061/EE063 (8am and 12pm)
  - Discussion of software, prototyping, and general progress
  - All students are expected to be on time and remain in lab for the entirety of their mandatory lab session
  - Students who are late will be marked as late

Next Week (Week 12)

- Midterm Lab Notebook Evaluation
  - Consult the lab notebook evaluation information available at the bottom of the Assignments page
- Homework 10: Legal Analysis
  - Discuss updated legal and patent issues relevant to your implemented project
- Work hard on your projects!
