

To Do List: Week 15

1. Final Project Archive

The final project archive is due the Monday of finals week, at 5pm. For the archive, please include all assignments and source files used in creating the various aspects of your project, zip the archive, and submit it to the assignments page:

<https://engineering.purdue.edu/ece477/Upload/submitFile.cgi>

2. Final Peer Evaluations

Please take the opportunity to fill out your final confidential peer evaluations. Evaluations are available at the following link: https://purdue.qualtrics.com/SE/?SID=SV_40XKSzftV7nPDwN.

Evaluations are due the Monday of finals week, at 5pm.

3. Final Presentations

Final presentations will take place the Wednesday of finals week at the date/time/location announced by course staff. Students teams will be split into groups; barring Teams will have 15 minutes, including 5 minutes for a project demonstration video. Please inform course staff of any finals or other conflicts which you might have for final presentations.

4. PSSC Check-offs

Student teams have until the end of the day, Thursday of finals week, to perform any PSSC checkoffs, preliminary or final. Preliminary PSSCs can be demonstrated with an incomplete PCB (devboard demonstrations will not be accepted), while final PSSCs require complete packaging and fully integrated hardware. If you haven't already done so, please print off a copy of the PSSC Check-off Form, available here:

<https://engineering.purdue.edu/ece477/Course/Process/PSSCCheckoffForm.docx>. Leave the form taped at your station, and contact course staff when PSSC check-offs are desired.

5. Lab Cleaning

Students are expected to clean their lab stations at the conclusion of the semester. Any lab cleaning which students wish to perform after Friday of finals week must be arranged in advance with Joseph Bougher

6. Reimbursements

For those teams which haven't already done so, ECE477 offers a one-time reimbursement to help cover the costs of parts and materials accrued by team members over the semester. Please see our reimbursement process,

<https://engineering.purdue.edu/ece477/Course/Process/OrderingProcess.pdf>, for further details.

7. Progress Reports

Progress Reports are due Fridays at midnight (same time as homework assignments). Progress report weeks should follow the course calendar. For any questions regarding the content to be included within a progress report, students may consult the Progress Report Policy, available here: <https://engineering.purdue.edu/ece477/Course/Policies/ProgressReportPolicy.pdf>
