

AGRICULTURAL & BIOLOGICAL ENGINEERING

FEATURE WEEK

Tuesday Sept 30th–Thursday Oct 2nd

Engineer Your Future in ABE

Tuesday, 9/30/2025: LMBS Lobby, 9am-12 noon

Join ABE Ambassadors for coffee & donuts

Learn about ABE majors,

- Agricultural Engineering
- Biological Engineering
- Environmental & Natural Resources Engineering

Discover ABE: Innovation in Action

Wednesday, 10/1/2025: POTTER Plaza, 11am-4pm

- Make popping boba – learn about applications from bubble tea to pharmaceuticals
- Meet the Robotic Dog revolutionizing animal welfare
- See how to use UAV's and data analysis to improve food production
- Examine the Quarter Scale Tractor Team machine that competed in the national pulling competition (placed 5th in US in 2025)
- Explore on our portable water stream table to explore designing landscapes to prevent soil erosion and runoff of pollutants

Step Into ABE: Explore What's Next

Thursday, 10/2/2025: ABE Parker Grand Lobby, 10am-3:30pm

FYE students who attend may count this toward fulfilling an EYM session.

- Meet ABE students (snacks provided)
- Tour the ABE, building:
 - Visit Biotechnology lab and Biochemistry lab
 - Visit the Food Process Maker Space
 - See the engines, transmissions, hydraulics and CNC labs, along with the high bay space
 - See the environmental field prep lab, water resource lab, and UAV labs
- Meet & talk with ABE Faculty and visit with ABE Academic Advisors
