

AGILE CERTIFICATION COURSE

2.1 CONTINUING EDUCATION UNITS

5 WEEK ONLINE COURSE

ABOUT THE AGILE ONLINE COURSE

Purdue University's on line Agile course teaches professionals an in-depth methodology to manage high-uncertainty projects where requirements are not well understood or are rapidly evolving. Professionals well-versed in agile methodology are in high demand among organizations that are focused on increasing their project management competence.

Throughout the five-week course, students will become versed in several agile approaches including Scrum, Kanban, Extreme Programming (XP), and Scrum ban. The 100% online course is perfect for busy professionals who want to add value to their organizations and advance their careers.

PROJECT MANAGEMENT INSTITUTE CONTENT

Students will learn to align their skills with the global standard set by the Project Management Institute (PMI)®. After completion of the course, students will be awarded 2.1 Continuing Education Units (CEUs), equal to 21 contact hours. The course prepares students to take the PMI Agile Certified Practitioner (PMI-ACP)® exam, or the newest version of PMI's Project Management Professional (PMP)® exam.

PROGRAM BENEFITS

- > Earn a credential from a top ranked research-based university
- > Developed and taught by highly qualified industry professionals
- > 100 percent online with high-calibre course content
- > Earn 2.1 Continuing Education Units (CEUs)
