<ul style="list-style-type: none"> <li>The instructor does well in the delivery of content. He explains the concepts clearly and gives examples that enhance the understanding of concepts. Moreover, he provide demonstrations of various concept, which allows students to visualize the applications and concept.</li> <li>NA</li> <li>The experient videos and lecture videos are very good and interesting.</li> <li>He is really an excellent professor! Anyone who takes the course should have professor Melloch's class. He is kind to students and willing to help them understand concepts. He is not strict in grading and generous to give As.</li> <li>Professor Melloch gives a very clear and precise explanation on every course material. He also demonstrates the concepts we have learned in this course by performing experiment. The homework really helps students to practices the materials and preparation for the exams. The exam point recovery policy not only helps students to regain the points they have lost on the exams, but also helps students to be able to review and remember the materials after the exams, which I think is a great policy and should continue in the future.</li> </ul>	

16 - Make a suggestion(s) for improving the course (a criticism alone is not helpful; tell your instructor how you would fix any problem).
