

# Map Your Watershed - Indiana

Developed by Claire Middendorf & Jane Frankenberger, Purdue University

A web tool to access information about Indiana's water resources, land features, and human activities that may affect them, based on selected layers from IndianaMap.

## Map Layers Currently Available in Map Your Watershed

(We welcome suggestions of others that you feel would be helpful in watershed management. Please contact us at – cmiddend@purdue.edu or frankenb@purdue.edu)

### Surface Water

1. HUC Watersheds:
  - a. HUC2, HUC4, HUC6, HUC8, HUC10, HUC12
2. Outstanding
  - a. Natural and Scenic Rivers
  - b. Exceptional Use Watershed of Indiana
  - c. National Park Service River Inventory 2023
  - d. NRC Outstanding River 2013
3. IDNR Flood Hazard Zones
4. Low-Head Dams
5. IDNR Dams Hazard Potential
6. NWI Wetlands
7. Navigable Waterways
8. NHD Rivers and Streams
9. NHD Lakes, Ponds, Marshes
10. Stream Mileage
11. USGS Streamflow Gauges 2023
12. Fishing Access Sites

### Water Monitoring

1. IDEM Macroinvertebrate Sample Stations
2. IDEM Fish Sample Stations
3. IDEM Chemical Sample Stations
4. ATTAINS Assessment Streams
5. ATTAINS Assessment Water Bodies
6. Fixed Station Water Quality Monitoring
7. USGS Groundwater Monitoring Well Locations 2023

### Potential Pollutants

1. Underground Storage Tanks
2. Dry Cleaner & Laundry
3. Spills
4. Leaking Underground Storage Tanks
5. NPDES Facilities
6. NPDES Outfalls
7. Hazardous Waste Corrective Action
8. Brownfields
9. Confined Feeding Operations
10. State Cleanup Sites
11. Landfill Boundaries
12. Waste Disposal Storage and Handling
13. Auto Salvage
14. Coal Combustion Waste Impoundments
15. Tire Sites
16. Superfund Sites
17. Manufactured Gas Plants
18. Registered e-Waste Storage

### Groundwater

1. IDNR Water Well Locations
2. Aquifer Sensitivity – Near Surface

### Soil and Land Use

1. Soil Map Units SSURGO
2. Prime Farmland
3. Soils Drainage Class
4. NLCD Land Cover 2021

### County Boundaries
