

U.S. Naval Ordnance Laboratory, Pressurized Ballistics Range, Shot No. 4060, Station No. 12V, Model A22 10-deg. cone, Mach number 3.81, Pressure = 7.89 mm Hg, Re = 26.5 million per foot. Sent to Avco, 7-5-1963. From Ken Stetson's files. Digitized 600 dpi by S.P. Schneider, 21 Oct. 2009. Clearly, station 12V is upstream of 20V in other image, since cone is a little faster here.
