U S I N G T H E P A R T N E R S F O R A S A F E R
C O M M U N I T Y R E S O U R C E G U I D E

This easy-to-use guide is designed to assist individuals in locating up-to-date educational materials relating to a variety of safety and health interests for use by FFA Chapters in promoting safer and healthier communities. Resource listings have been divided into subject areas and then categorized by medium as either “Print,” “Audiovisual” or “Other.” Each entry provides a short description of the product, its source, estimated cost, length, date of production, and order number, when available.

Because many organizations produce more than one safety resource, this guide uses an abbreviated coding system to simplify listings and avoid confusion. Once a resource has been identified from one of the subject categories, simply turn to the “Resource Coding System” at the beginning of the guide to locate the group’s address, phone number, or Website from the alphabetized coding list. A list of all resources is included at the end of the guide.

Although this guide cites numerous resources, it is by no means an all-inclusive compilation. It should also be noted that addresses and phone numbers change frequently, so listings tend to become outdated quickly. For these reasons, you are encouraged to query local agribusinesses, Cooperative Extension educators, public health officials, and librarians about additional safety resources. A contact list of Cooperative Extension state safety specialists and a listing of on-line resources have been included to facilitate your search.

Your efforts can make a difference in promoting the safety and health of your community. Having the right tools to get the job done will allow you to be more effective.

STATE COOPERATIVE EXTENSION SAFETY
SPECIALISTS

**United States Department of Agriculture - Cooperative State
Research, Education and Extension Service (USDA-CSREES)**

USDA has been putting agriculture on the road to safety since the 1940s with support for state-level Extension farm safety programs. Cooperative Extension has consistently been a leader in farm safety efforts throughout the United States, and many organizations look to Extension for resource materials and leadership. According to state Cooperative Extension reports from 2000, more than 300,000 farm operators, employees and family members had participated in some type of Extension-supported farm safety program.

To find out what programs and resources are available in your state, contact the Cooperative Extension Educators (listed in your local telephone directory, usually under county government) or State Extension Farm Safety Leader at your land-grant institution (see list below).

Many rural communities have established mental health services through local hospitals, clinics, and designated crisis lines. Some states have set up farm crisis hotlines, referral centers and mediation services. The following is a partial list.

Remember a load is always easier to carry with a little help.

- Illinois - Farm Resource Center: 1-800-851-4719
- Indiana - Breaking New Ground Resource Center: 1-800-825-4264
- Iowa Concern Hotline: 1-800-447-1985
- Iowa Mediation Service: (515) 331-8081
- Kansas Ag Mediation Services: 1-800-321-3276
- Massachusetts - FarmNet of the Pioneer Valley: In Massachusetts 1-800-327-6002 (Information and referral). Out of state contact: Community Involved in Sustaining Agriculture (413) 559-5338
- Minnesota Farm Advocate Program: (651) 296-1484 (one-to-one liaison between farmers and creditors)
- Missouri Rural Crisis Center: (573) 449-1336
- Rural Restoration ADOPT: 1-800-472-4674
- University of Nebraska Decisions Now: 1-800-535-3456 (three-day family workshops to examine changes in the operation and finances; minimal counseling, no mediation)
- Nebraska Farm Hotline: 1-800-464-0258
- Nebraska Ag Mediation Service: 1-800-446-4071
