

Assignment 7:
Electronic Essay Containing Reactions to President Jischke's Talk
Due Electronically on 11/9/00

AAE 190: Introduction to Aerospace Engineering

On Tuesday, October 31, 2000, Purdue University President Martin Jischke spoke informally in class about his life and about a number of themes that he has observed throughout his life. Your assignment is to describe your reactions to that talk, what you found to be significant, memorable, or surprising about the talk.

Please submit your essay in electronic mail format (text format only). Do not attach a document to your e-mail. Put your essay in the body of the e-mail and send it to our teaching assistant, Ivor Bulathsinghala (ivorbula@yahoo.com). Ivor will take each e-mail and combine them into one electronic document. That document will be posted on our course web page and sent to President Jischke.

Students who missed the talk have two choices: submit nothing and receive a grade of zero for the assignment, or interview two or more students and write the essay about their reactions being sure that the reader knows what you are doing and who the students you interviewed were.

Your essay will be made public and should reflect well on you and on Purdue University. It will also be read by President Jischke.

Assignment 6: Jeopardy Clue-Response Pairs is Due on Tuesday, 11/7/00. See http://roger.ecn.purdue.edu/~andrisan/Courses/AAE190%20Fall%202000/Scientific_Notation.pdf. We will use the clue-response pairs in a game of Jeopardy on that day.
