

**A&AE 451**  
**Aircraft Design**  
**Assignment 1**

Read everything handed out in class on Tuesday.

Read the paper by Roskam (“What Drives Unique Configurations”) and be prepared to discuss it next class

Read the “Guidelines for Ethical Behavior in this Class” and other material on ethics. You should be prepared to discuss this in class on Thursday.

Sign the ethics statement on the second page of the Guidelines and hand it in to Professor Andrisani on Thursday.

Fill in the interest survey and hand it in on Thursday.

Attempt to form teams that balance the areas mentioned on the interest survey. You can hand in proposed teams on Thursday for approval. 2 or 3 teams seems about right. 5/team is great. If we have 15 students show up we should have 3 teams of 5. If we have 12 students 2 teams of 6 will work. If we have 13 or 14 students Professor Andrisani open for suggestions.
