"Ideal" passpoint locations – they should be evenly distributed over the block, and each one on as many photos as possible (minimum: two photos, a one photo passpoint contributes 2 equations and 3 unkowns – oops, you just made your equations singular)
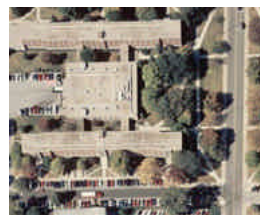

ph1_8   ph1_7   ph1_6   ph1_5   ph1_4

ph2_7   ph2_6   ph2_5   ph2_4

Pass point p2_6: found on 9 photos, shown above. Select the actual point on hi-res view, corner of the tile walkway
