

ECE/BME 641 - The Class with No Name  
Fall 2023

Also known as:

- Image Processing II
- Model-Based Image and Signal Processing
- Foundations of Computational Imaging

*Instructor:* Charles A. Bouman

Office: MSEE 320

Phone: (765) 494-0340

E-mail: bouman@purdue.edu

Course Hours: MWF 1:30 to 1:20

Classroom: Schleman Hall 302

Class TA: Wenrui Li, email: li3120@purdue.edu

Office Hours: Friday morning 9-12 PM

Course Web Page: <https://engineering.purdue.edu/~bouman/ee641/>

Lab Web Page: <https://engineering.purdue.edu/~bouman/grad-labs/>

*Primary Reference:*

1. Class notes: C. A. Bouman, *Foundations of Computational Imaging*, ISBN: 978-1-611977-12-7.

*Course Description:*

This course will cover topics in Computational Imaging and Inverse Problems at the level of current research. Reference material will be primarily in the form of the class notes and journal publications. The course will include computer homework assignments, computer projects, one midterm and a final. Final grades will use the following weighting.

*Course Grading:*

Homework and computer projects	30%
Midterm #1	30%
Final exam (may be a project)	40%

*Lab/Homework submission:*

Submit all assignments and labs in pdf format via the Brightspace web page. Clearly label the submission (i.e., “homework 1” or “Lab 2”). The submitted pdf document should include all requested code.
