Host will mute everyone- At 9:00 am the President will give an opening address/introduce keynote speaker: Good morning! My name is Paulina Babiak and as the GSO president I would like to welcome everyone to the 30th Annual GSO Symposium! We are thrilled you are able to join us today to support our students' research. We also would like to thank you for supporting our students and department throughout these unprecedented times, and remaining flexible during online platform changes. We will start our event off with a Keynote Address. It is my honor to introduce Dr. Eric Stangland as our keynote speaker this year. Dr. Stangland received his BS in Chemical Engineering BSChE from The University of Wisconsin-Madison in 1994 and his PhD in Chemical Engineering from Purdue University in the year 2000. Dr. Stangland is currently a principal research scientist at Dow, where his role involves technical leadership in a variety of catalyst and catalytic process development projects. He is also active in the American Institute of Chemical Engineers (AIChE) and the North American Catalysis Society (NACS), and served as the President, Director, and National Representative of the Michigan Catalysis Society (MCS) and as Technical Program Co-Chair for the 22nd NACS Meeting and the 12th Natural Gas Conversion Symposium. Please join me in welcoming Dr. Stangland. A reminder to please keep yourself muted during the keynote address. If questions arise, please use your "raise your hand" option, we will take note of order- GSO: please prepare to ask 1 question, in case no one asks- 9:55 am: President: Thank you everyone for your thoughtful questions and fruitful discussion. We are just about out of time. Please join me in thanking Dr. Stangland for his address. Next
