My name is Paulina Babiak and as the GSO president I would like to welcome everyone to the 30th Annual GSO Symposium! We are thrilled you are able to join us today to support our students' research. We also would like to thank you for supporting our students and school throughout these unprecedented times, and remaining flexible during online platform changes. We will start our event off with a Keynote Address. It is my honor to introduce Dr. Eric Stangland as our keynote speaker this year. Dr. Stangland received his BS in Chemical Engineering from the University of Wisconsin-Madison in 1994 and his PhD in Chemical Engineering from Purdue University in 2000. Dr. Stangland is currently a principal research scientist at Dow, where his role involves technical leadership in a variety of catalyst and catalytic process development projects. He is also active in the American Institute of Chemical Engineers (AIChE) and the North American Catalysis Society (NACS), and served as the President, Director, and National Representative of the Michigan Catalysis Society (MCS) and as Technical Program Co-Chair for the 22nd NACS Meeting and the 12th Natural Gas Conversion Symposium. Please join me in welcoming Dr. Stangland. A reminder to please keep yourself muted during the keynote address. If questions arise, please use your "raise your hand" option, we will take note of the order.- GSO: please prepare to ask 1 question, in case no one asks- 9:55 am: President: Thank you everyone for your thoughtful questions and fruitful discussion. Proctoring Instruction:

- Announce each presentation (name, advisor and title of presentation)
 - Remind to keep questions until the end, and use the raise your hand feature
- Send slack message in the correct channel announcing the presentation (name, advisor, title). And say questions for the presenter can be asked by replying to this message.
- Keep track of time:
 - Have paper with 5 min and 1 min and hold them up as a warning. Also privately message the presenter
 - We are limited on time, so we need to keep the presentations moving. Don't be afraid to interrupt (politely)
- Q&A: after each presentation, please ask everyone to use the raise your hand feature. Call on the people asking questions. Prioritize rep questions and faculty questions.
- When time is up, remind that further questions can be posted in the slack thread announcing each presentation
